

KATERINA PSALLIDA

Data Analysis, Data Science

Profile

With solid experience in IT high-performance settings, Power BI reporting reinforced by Data Science projects completed through my MSc, I am pursuing roles in Data Science and Data Analysis. I bring analytical thinking and a methodical approach to deliver precise outcomes

HIGHLIGHTS

500 hrs in **Data Science (2024)**

280 hrs in **Data Engineering (2025)**

Diploma in Data Analytics (2024)

Data Science projects (MSc - ongoing)

2 yrs in Digital Sales (Data & AI)

Outbound Prospecting - Pipeline Creation

SAP System technical expertise (IBM)

Events Management & Participation (IBM)

CRM Sales Tools Project Management
Content & Campaign Management

PROFESSIONAL

Analytical Thinker Detail-Oriented
Taking Ownership Problem-Solver
Continuous Learner Adaptable

TECHNOLOGY

Business Presentations & Communication

CRM Systems : Salesforce

Engagement Platforms :

Salesloft, ZoomInfo EveryoneSocial
OneMob Sales Navigator

Data Science

Python SQL Pandas EDA Numpy
MongoDB Regex Web Scraping APIs
Scikit-learn NLP Keras
Docker Airflow ETL Pipelines

Visualizations

Power BI Matplotlib Seaborn
Dash Plotly Metabase

LANGUAGES

Greek (Native) English (Proficient)

EXPERIENCE

PowerFactors SA

Athens, Greece

Sales Operations Analyst

07/2025 – 07/2026

- Designed a normalized Power BI data model integrating Salesforce data to enable performance reporting across accounts, geographies, and product lines
- Used Claude (AI via MCP), to accelerate DAX development, analysis and executive presentations
- Streamlined supplier verification questionnaires and time/issue tracking by using Claude to query historical records and structure consistent responses

PPC SA, 2-month project in Market Analysis Unit

Athens, Greece

Data Scientist

06/2024 – 07/2024

- Short term PoC project to improve next-day energy price predictions

IBM Hellas SA

Athens, Greece

Digital Sales Specialist, Data and AI Portfolio

01/2022 – 01/2024

- Generated a pipeline of 50 opportunities in 1 year via outbound prospecting, penetrating 10 new accounts and nurturing existing ones to adopt new technologies

Senior Performance Marketing Professional

01/2013 – 01/2022

- Developed marketing performance strategies, led digitization of materials and audit documents, and organized major events

SAP Technical Team Lead

01/2000 – 12/2012

- Led technical implementation and crisis management for enterprise SAP systems across proprietary OS platforms (AIX, AS400, OS390) and databases (DB2, Oracle, MS SQL); mentored and quality-reviewed the work of three senior consultants

University of Birmingham

Birmingham, UK

Researcher

09/1997 – 08/1998

- Implemented genetic algorithms (coding) for crystal structure determination

Smith & Nephew Group Research Centre

York, UK

Researcher

01/1996 – 08/1997

- Used molecular simulations to aid the design and analysis of new materials

EDUCATION

The American College of Greece, Deree

Athens, Greece

MSc in Data Science

05/2025- 05/2027

Big Blue Data Academy

Athens, Greece

Data Science and Data Engineering Bootcamps

04/2024- 01/2025

The University of Salford

Salford, UK

MSc in Computational Physics (Distinction), European Social Fund Grant

1996

National & Kapodistrian University

Athens, Greece

BSc in Physics (Grade 8/10)

1994

TRAINING

Big Blue Data Academy: Professional Diploma in Data Analytics

04/2024

IBM Global Sales School: 6-week IBM Sales Coaching Course

11/2022

SAP R/3 Basis Consultant, AIX/ORACLE

04/2000

PROJECTS

[Projects Associated with Machine Learning and Data Engineering](#)

Tools: Python, EDA, Regression - Classification Algorithms, NLP, TimeSeries, RNN-LSTM, PowerBI, Data Visualization, Docker, Airflow, ETL, Data Pipelines
